

Evania Cheng

www.linkedin.com/in/evania-cheng — Bay Area, CA — (510) 484-1567 — evania9888@gmail.com

Education

UC Santa Barbara, Goleta, CA

September 2022 - June 2026

Computer Science, B.S.

Relevant coursework: Discrete Mathematics, Computer Organization and Design Logic, Data Structure Algorithms, Artificial Intelligence, Machine Learning, App Programming

Skills: Python, C++, LaTeX, Git

Experience

SULI Research Intern

June 2026 - Present (Anticipated August 2026)

Lawrence Berkeley National Lab (LBNL), Berkeley, CA

- Designing an Agentic Visual RAG for materials science image interpretation, enabling vision-language models to ground predictions in retrieved microscopy and fracture images.
 - Implement pyCBIR, an image retrieval tool, and vision language model (VLM) reasoning to support iterative visual evidence retrieval and comparison
 - Evaluation of system performance using hallucination rate, evidence grounding score, calibration (ECE), and retrieval recall to measure reliability improvements over baseline VLM approaches
- Skills:* Python, VLMs, ML packages, Plotly

Frontend Developer Intern, California Seismic, Remote

June 2025 - August 2025

- Collaborated on the Base Shear App, a React-based tool for seismic force calculation and visualization.
 - Built SVG diagrams and integrated Plotly.js to create interactive building elevation visuals and force distribution plots, improving user comprehension and engagement.
 - Worked in an agile development environment
 - Wrote and executed unit tests to validate page behavior, ensuring reliability and preventing regressions.
- Skills:* React, Tailwind CSS, Figma, Trello

NetFlex Student Researcher, UCSB SNL Lab, Goleta, CA

September 2024 - June 2025

- Designed and implemented automated pipelines to measure network performance using Python.
 - Integrated LLM RAG workflows to enable query-based analysis of network data for clearer insights.
 - Co-authored a research paper summarizing methodology and findings, published on arXiv (preprint).
 - Presented results in a poster session at the end of the year, communicating technical insights to faculty and peers.
- Skills:* Python, LLMs, RAG, Git, Speed Test Measurements, Networking

Teacher Assistant, Techknowhow Computer Camps, SF Bay Area, CA

June 2023 - August 2024

- Guided students through Scratch projects, ensuring thorough understanding.
 - Engaged and motivated students' participation in coding and LEGO robotics activities.
- Skills:* Scratch, Lego Robotics

Extracurricular

CEES Mentor, UCSB, Remote

October 2024 - June 2026

- Mentor first-year engineering students, providing academic guidance and career advice.
- Coordinate with graduate mentors to facilitate integration of mentees into the UCSB environment.
